SUMPIE SUMP PUMP SENSOR

Sumpie is more than a sump pump alarm. It's the world's first predictive sump pump sensor. Sumpie is professional-grade sensor that can be installed in 2 minutes. It monitors sump pit water levels in real-time and tracks sump pump performance for predictive maintenance and flood protection at commercial and residential properties. The system sends alerts and notifications to assigned users, in advance, if the pit is filling above an acceptable level or the pump isn't operating efficiently.

Assigned users receive notifications and alarms about sump pump events before flooding happens. The backup battery and cellular connection keeps Sumpie working without electricity to provide 24/7 alarms and alerts for up to 3 days.

Power Requirements	5V DC, 2.0A max
Backup Battery Life	1-3 days depending on radio strength, usage and alarm severity
Cellular Carrier	Rogers (Canada) AT&T / T-Mobile (USA)
Water Resistance	IP67
Effective Range	2 in - 6.5 ft 5 cm - 2 m
Dimensions	4 x 4 x 2 in (95 x 95 x 50 mm)
Weight	9 oz (260g)
Miscellaneous	Fits on standard 1.5" ABS pipe Suitable for normal and sealed sump pump pits
Warranty	1 year limited warranty
